

Advisory CTO Services

Executive technology strategy without the full-time CTO cost

fractionalcto.io

What an Advisory CTO Does

An Advisory CTO provides the technology leadership and strategic oversight of a Chief Technology Officer, but only when you need it.

Instead of adding permanent cost, you gain on-demand access to executive-level expertise that helps you make the right technology decisions and shape your organisation's digital future.

- Define Technology Strategy
- Guide AI Adoption
- Ensure Sound Decisions
- Bridge Communication

How Our Advisory Engagement Works

- 1** **Discovery Session**
We explore your goals, challenges, and technology landscape to identify immediate priorities.
- 2** **Strategic Blueprint**
You receive a clear roadmap outlining technology direction, dependencies, and governance needs.
- 3** **Implementation Oversight**
We support or oversee key delivery phases, ensuring alignment and risk control.
- 4** **Ongoing Advisory**
Continued executive guidance through regular sessions, reviews, or board attendance.

Tangible Outcomes

- Clear technology strategy and prioritised roadmap
- Independent, vendor-neutral advice
- Reduced delivery and investment risk
- Improved communication between tech and business
- Board-level assurance for digital decisions

Investment Levels

Direction & Focus From £1,500/month
